

Graduate Program 2015 : 5 New Recruits

Damiano AZZALINI, Sarah GOETHALS, Margot ROELL, Bryon SILVA, and Mingyue WU.
Welcome and congratulations!

[Read the report of the 2015 2-Days Auditions](#)

Warm thanks to researchers who contributed to the selection process: Maria Cecilia Angulo, Laure Bally-Cuif, Paolo Bartolomeo, Brice Bathellier, Gilles Bonvento, Grégoire Borst, Arnaud Cachia, Antoine Chaillet, Jean Daunizeau, Alain Destexhe, David Di Gregorio, Stéphanie Dubal, Salah El Mestikawy, Carole Escartin, Philippe Faure, Fiona Francis, Bruno Gasnier, Jean Antoine Girault, Julie Grèzes, Boris Gutkin, David Hansel, Bechir Jarraya, Carole Levenes, Sabine Levi, Jean Livet, Manuel Mameli, Brahim Nait Oumesmar, Srdjan Ostojic, Alessandra Pierani, Rebecca Piskorowski, Christelle Rochefort, Fekrije Selimi, Catherine Tallon Baudry, Laurent Venance, Sidney Wiener, and Boris Zalc.

DISABLED ACCESS?

We were recently asked by a disabled candidate if the premises of the ENP laboratories had a disabled access, and thus are accessible to students in wheelchairs.

As we didn't have a proper answer to provide to that crucial question, we ask you now to [send us an email](#) with the Object:

My lab has disabled access or My lab is not accessible to people in wheelchair.

Thank you in advance.

The ENP will be at the 2015 SFN meeting

with partners Aviesan, Inserm, the Société française des Neurosciences and the Office for Science and Technology of the Embassy of France in the USA, joining up for the 3d time at the common booth "French Neuroscience: from Education to Research".

In order to reach a targeted audience interested in choosing their doctoral training, the ENP team will be present

for a second year in a row at the daily **Graduate School Fair**, to present to international undergrad students the ENP Graduate Program. The attractiveness of Paris, the diversity of fields of study proposed, the interesting monthly stipend offered by the ENP, and low university registration costs are considerable assets to recruit trainees willing to study abroad.

Save the Date: Neuroscience 2015 will take place October 17-21 at McCormick Place in Chicago.

Give your lab international visibility at the next SFN meeting!

If you are attending the meeting and wish that your center/Institute/lab be presented on the **USB key** given away at the exhibit booth, please send your Pdf to the Société des Neurosciences **before July 1st** with useful links and address, along with a 300€ contribution.

To enroll or for details, [contact Clémence Fouquet](#) at the Société des Neurosciences or [contact Deborah Deslierres](#) at the ENP.

NEURODON: CAMPAIGNING STUDENTS AROUND FRANCE

For the second year in a row, [the ENP participated to the 12th edition of « Jardins ouverts pour le Neurodon »](#). Hosted by garden owners, [Jenna Sternberg](#) and [Mariana Ramos Brossier](#), ENP graduate students in their fourth year of PhD, had a fruitful experience, talking about science with the public, and raising awareness about brain research. Jenna went to the Jardins de la Ferme Bleue in Alsace, and Mariana Ramos Brossier to Lamballe, Brittany, at the Château de la Moglais, where she even made the local news! Read [Le Télégramme](#), and [Ouest France](#).

Two other students, Juliette Le Douce (from Gilles Bonvento ENP team) and Matthieu Tihy (sponsored by the DIM Cerveau et Pensée) went to the Jardin de la Ballue (Britanny) and the Chateau de Jarzé (Pays de la Loire). They also came back with a great appreciation of this experience and were glad to be given this opportunity by the ENP. They could learn about public's concerns about brain related diseases and shared with the public the everyday life of a researcher.

2015 ENP CALLS FOR SCIENTIFIC EVENTS AND SUMMER SCHOOLS

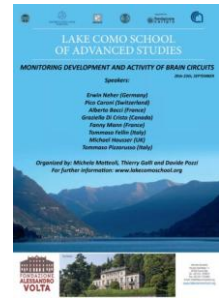

ENP team leaders are invited to apply now on calls.paris-neuroscience.fr .

2015 calls opened April 9th and we will be closing **October 1st**.

Coming Events

September 20-23d Lake Como Summer School “Monitoring Development and Activity of the Brain Circuits” organized by Thierry Galli (Institut Jacques Monod), Michela Matteoli (Department of Biotechnology and Translational Medicine, University of Milano), and Davide Pozzi (University of Milano)

[Click here for Program, Registration, Details](#) before July 15th.

Reminder : Events and Calls Updates

- There are links to more than 20 Centers and Institutes' agendas on ENP website. Find them on www.paris-neuroscience.fr/en/events
- We also update regularly the Calls, Jobs, Prizes section! See www.paris-neuroscience.fr/en/jobs
