

Call for proposals

Short-Term Postdoctoral fellowships

This call aims to help the ENP teams in attracting high-level postdoctoral scientists by providing a rapid response while other sources of financial support are sought for. **The applications must be transmitted by the ENP team leader.**

Conditions of eligibility

- Working abroad for at least two years*.
- Scientific excellence supported by the curriculum, the publications and/or by a specific expertise in ENP's research priorities.
- Showing that other sources of funding are being sought for.
- Hosting team must be affiliated to the ENP Network.

Short term fellowships- of less than one year will be provided (preferably one to six months.

ENP's research group cannot benefit from more than one postdoctoral fellowship. Candidates returning to their PhD laboratory will not be considered.

Application file

- A letter from the host research group leader affiliated to the ENP
- The CV of the applicant and a list of publications
- Two letters of recommendation
- A research project (two pages maximum)
- Recent publications of the ENP research group (maximum 10)

No fixed deadline.

The host laboratory is in charge of all the administrative entrance formalities (visa, resident permit, housing, etc.....) and research support.

Applications are reviewed by the ENP's Steering Committee, which takes the funding decisions after external expertise if necessary.

Decision letters from the ENP will be issued within two months following the application.

The applications have to be exclusively transmitted by the ENP team leader to yvette.henin@paris-neuroscience.com.

*This call is generally not applicable to French scientists who obtained their PhD in Île-de-France.
